Access to Funding & Capital: Strategies for Indigenous Stakeholders

Transcorp Hilton Hotel

08:00 REGISTRATION & WELCOME COFFEE

PANEL DISCUSSION

1 STRATEGIES FOR ACCESSING CAPITAL, ENCOURAGING INVESTMENT & UNDERSTANDING RISK

- Understanding risk; what factors contribute to commercial and transaction risk?
- Why has risk become such a boundary to financing for Nigerian SMEs and what steps can be taken to mitigate it?
- What are the financing strategies available to domestic stakeholders?
- What steps can be taken by stakeholders to improve their attractiveness to financial institutions, increasing their access to capital?
- How can indigenous players encourage external investment?

2 WHAT STEPS MUST BE TAKEN TO EASE ACCESS TO FINANCING FOR THE GROWTH OF THE INDIGENOUS OIL & GAS INDUSTRY?

- Have we seen any development in easing access to finance in the last few years for Nigerian stakeholders?
- How can policy makers create a more enabling environment; will industry reform, through the passage of the PIB, ease financing constraints?
- Has the Nigerian Content Development Fund contributed to improved access to capital?
- Why has equity financing been slow to develop and is there a role for it within the Nigerian oil and gas industry?
- Would stakeholder collaboration improve access to capital, what are the opportunities for collaboration and why would this be beneficial?

09:15 MINISTERIAL TOUR OF THE EXHIBITION

NETWORKING COFFEE BREAK

hosted by **FMC Technologies**

2

THE CHANGING FACE OF THE OIL & GAS INDUSTRY: NIGERIA'S FUTURE STRATEGY IN A GLOBAL CONTEXT

- How must policy develop to cope with the shifts in export markets and lower oil prices - diversifying market outlets and creating new opportunities?
- What opportunities have been created through recent global industry and geopolitical developments?
- How effective has the marginal field programme been and how will policy continue to drive the growth of Nigerian producers?
- What effect has Nigerian Content had on industry growth and how will this continue?
- How will forecasted global industry developments impact the Nigerian oil and gas industry and what strategies are in place to capitalise on these?

SPECIAL KEYNOTE ADDRESSES

3

A NEW ERA FOR GAS & POWER: IS NIGERIA ON COURSE TO MAXIMISE ITS POTENTIAL?

MINISTERIAL ADDRESS

H.E. (Prof) Chinedu O Nebo
Honourable Minister of Power
Federal Ministry of Power, Nigeria

INTRODUCTORY REMARKS

David Ige
Group Executive Director - Gas & Power
NNPC

- What concrete developments and key achievements can be celebrated over the last twelve months?
- What achievements have been made in gas monetisation – what strategies and projects have been adopted?
- Post-privatisation of the power industry: what challenges remain and how are they being addressed?
- How will gas provision be assured for the growing domestic power sector?
- How can the public and private sectors work together to drive gas and power and secure funding through external investment?
- What strategic partnerships have been entered into for enhanced funding of gas projects?

 hosted by **FMC Technologies**

PANEL DISCUSSION

4 COMMUNITY CONTENT: HOW HAS COMMUNITY EMPOWERMENT & INTEGRATION BEEN ACHIEVED SUCCESSFULLY?

- How have community engagement strategies developed beyond community assistance and CSR projects over the last ten years?
- How is the industry encompassing community engagement within operational decisions, rather than taking a reactionary approach?
- What are the key success factors for successful community integration within industry projects?
- How will community content continue to develop in the short to medium term and how will the wider industry benefit?
- What will the legacy of the oil and gas industry's community content initiatives be and how will this be ensured on completion of oil and gas operations?

NIGERIA OIL & GAS LEADERS' PANEL

5 EFFECTIVE SOLUTIONS DRIVING INDUSTRY CHANGE: COSTS, LEAD TIMES, PROJECTS & PLANS

Chairman:

Dr Alirio Parra
Board Member
CWC Group Ltd

- How are IOCs and NNPC creating synergies to reduce operating costs and what role can policy makers play in further cost reduction?
- What steps are being taken to reduce the tender approval process and project lead times?
- What specific challenges are posed by the passage of the PIB, as it currently stands? Are implementation strategies in place yet?
- In an ideal scenario, what are IOC project plans for 2015-2020?
- Five years on, how do IOCs see Nigerian Content as contributing to the development of the Nigerian oil and gas industry?
- How will lower oil prices impact the Nigerian oil and gas industry?

INDEPENDENTS' PANEL

6 THE RISE OF NIGERIAN INDEPENDENT PRODUCERS: THE SECRETS TO SUCCESS & OUTLOOK FOR THE FUTURE

Opening Remark & Chairman:

Scott Aitken
Co-CEO
Atlantic Energy

- Reviewing the marginal field programme; what lessons have been learned, is there a need to introduce a 'use it or lose it' approach to non-producing marginal fields?
- What are the short to medium term strategies for future growth, where will investment come from and is further regulation required?
- What role are independents playing in the provision of gas to power and related sectors?
- What are the exploration plans for Nigeria's independent producers, how are they contributing to Nigeria's reserve levels?
- What challenges does this important industry sector continue to face and how can these be overcome?
- What opportunities are being created for the Nigerian service companies, how will they capitalise on this?

INDUSTRY REVIEW

7 EXPLORING SOLUTIONS TO ASSET SECURITY CHALLENGES FACED BY THE NIGERIAN OIL & GAS INDUSTRY

International Address:

Roger Brown
Leading Pipeline Security Expert & Regional Manager Africa, Middle East, Asia
IDG Security

- Reviewing the last twelve months, what progress has been made and how effective have new policies, such as the STEM framework been?
- Examining international best practice for onshore asset protection
- What measures have industry implemented to ensure asset security?
- Will the recent ruling regarding liability for spills resulting in environmental damage influence the measures taken by industry to any degree?
- Minimising exposure to risk through cross-stakeholder collaboration, what steps need to be taken?

Philip Mshelbila

8 THE PETROLEUM INDUSTRY BILL: THE FUTURE OF THE NIGERIAN OIL & GAS INDUSTRY?

Chairman
Wumi Iledare
President
International Association of Energy Economists

OPENING ADDRESS

Imperatives of Regulatory Change in the Oil & Gas Industry - Lessons from Colombia

Armando Zamora
Honourary Lecturer, Centre for Energy, Petroleum & Mineral Law & Policy & Former Director
National Hydrocarbons Agency (ANH), Colombia

- What impact has the slow passage of the PIB had on the industry?
- How do different stakeholders view the PIB and its expected impact on the industry in its current form?
- Should the PIB be split, or passed and left to the market to highlight necessary adjustments?
- Amid greater global competition, more varied sources and a shifted fiscal focus, is the PIB still relevant for today's oil and gas industry?

Ciro Pagano
Chairman
Oil Producers Trade Section

Sanjeev Verma
Managing Director
Halliburton Nigeria

EXCLUSIVE INTERVIEW

1 EXAMINING FIVE YEARS OF NIGERIAN CONTENT: SUCCESSES, CHALLENGES & OUTLOOK FOR THE FUTURE

Ernest Nwapa
Executive Secretary
Nigerian Content Development & Monitoring Board

3 HOW MUST NIGERIAN CONTENT CONTINUE TO DEVELOP IN THE NEXT FIVE YEARS?

- What are the key challenges remaining in Nigerian Content compliance, how can these be overcome?
- How does current oil and gas policy compliment the growth of Nigerian Content; is a refocus necessary?
- What must be done in the next five years to ensure the objectives of the Nigerian Content Act are realised, particularly in increasing industry contribution to GDP?

PANEL DISCUSSION

2 DRIVING GREATER NIGERIAN CONTENT SUCCESS: JOB CREATION, INFRASTRUCTURE DEVELOPMENT & INDUSTRIALISATION

- Should the development of the downstream oil and gas sectors become a priority to further advance Nigerian participation in the oil and gas industry?
- How would Nigerian Content benefit from investment in the downstream sector – job creation, infrastructure development and industrialisation?
- How will critical infrastructure projects contribute to Nigerian content growth; how is industry driving infrastructure growth?
- With an increasing focus on the development of industrial parks, what contribution will these play in creating opportunities for SME growth and indigenous participation in the oil and gas industry?

Raymond Wilcox
General Manager, Nigerian Content Development
Chevron Nigeria

Igo Weli
General Manager, Nigerian Content Development

Bringing Together Technical Leaders to Explore the Importance of New Technologies in Supporting the Nigerian Oil & Gas Industry

Plan Your Visit Now!

DAY ONE
Tuesday 17 March

12:30 - 15:00

ICT SOLUTIONS FOR THE NIGERIAN OIL & GAS INDUSTRY

- SCADA solutions for the Nigerian petroleum sector
- Asset performance management technologies
- The role of ICT technologies and solutions for the oil and gas industry

DAY TWO
Wednesday 18 March

10:30 - 13:00

TECHNOLOGIES POWERING NIGERIA

- The development of gas to power technologies
- Gas turbines and alternative power solutions
- Driving CNG use in Nigeria

14:00 - 16:30

OFFSHORE & SUBSEA ENGINEERING: TECHNOLOGIES REQUIRED FOR OFFSHORE PROJECTS

- Hosted by
- Developments in subsea and deepwater technologies
 - Increasing asset lifecycle with corrosion management technology
 - Developing a local technical workforce

DAY THREE
Thursday 19 March

10:30 - 12:00

COMMERCIALISING NIGERIA'S VAST GAS RESERVES

- Cost-effective solutions for flare gas recovery
- GTL solutions and technologies for associated gasses
- Efficient tank gas recovery systems

12:30 - 14:00

SECURITY & SAFETY SOLUTIONS IN NIGERIA

- Hosted by
- Remote energy services in Nigeria
 - Technologies and training to ensure safe installations
 - Solutions and technologies for pipeline security

With thanks to our sponsors of the Technical Sessions:

Call for Papers

If you specialise in any of these areas and would like to submit an abstract to present at the NCI Technical Seminars, please contact Jeneveive Rodrigues by 15th December 2014

Recognising Nigerian Excellence - A Prestigious Evening of Networking

You are cordially invited to the

15th Annual Nigeria Oil & Gas Awards Gala Dinner

Hosted By:

Featuring

Nigeria Oil & Gas Awards

Hosted By:

Wednesday 18 March

Join us for a night of celebration as we recognise excellence in the Nigerian oil and gas industry. Awards categories will include:

-  NOG Excellence Award
-  Nigerian Content Contribution Award
-  Indigenous Company of the Year Award

Winners of the 2014 Awards:

Nominate Today!

The full award criteria can be found on the NOG website. All members of the industry are invited to submit their nominations at: www.cwcnog.com or email nogenq@thecwcgroup.com.

Nominations close on 13 December 2014
Shortlisted companies to be announced on 20 January 2015

Visit www.cwcnog.com to nominate today, or email nogenq@thecwcgroup.com

CWC in Nigeria

Our extensive operations in Nigeria, which include fourteen editions of Nigeria Oil & Gas (NOG) along with infrastructure, construction, technology and telecomms events, meant that it was a natural progression for us to open a Nigerian office, NCI. Looking after CWC's operations in Nigeria, including conferences, exhibitions and School for Energy courses, NCI aims to support development in Nigeria, and is proud to work with and on behalf of senior level policy and decision makers from:

Our operations in Nigeria have always had the unprecedented support of the Nigerian Government and are carried out in consultation with Nigerian stakeholders including Ministries, State Companies, NGOs and Nigerian industry experts.

NCI believes in actively nurturing businesses in Nigeria, supporting sustainability through quality-driven purchasing strategies and has a preference for Nigerian suppliers over internationals for its Nigerian events, including:

- ▶ Exhibition Builders
- ▶ Hostesses
- ▶ Signage Printers
- ▶ Furniture Suppliers
- ▶ Caterers
- ▶ AV Suppliers
- ▶ Technicians
- ▶ Florists
- ▶ Security
- ▶ Internet Providers
- ▶ Venues
- ▶ Power Generators
- ▶ Photographers
- ▶ Transportation
- ▶ Musicians
- ▶ Entertainers
- ▶ MCs
- ▶ Media & Press

The CWC Group & NCI are members of the **Nigerian Business Coalition Against AIDS (NIBUCAA)**. We share NIBUCAA's belief that the private sector should respond to the growing challenges of HIV/AIDS ensuring equal rights and opportunities for employees infected or affected by the virus.

NIBUCAA's operational strategies are to:

- ▶ **Support** the development of actionable activities around HIV & AIDS, by individual member companies through technical advice & advocacy
- ▶ **Increase** the range & quality of business sector involvement in HIV & AIDS & by extension, tuberculosis & malaria
- ▶ **Facilitate** information sharing on good price guidelines, policies & access to training sessions
- ▶ **Offer** direct service provision to communities where businesses operate
- ▶ **Provision & dissemination** of current research information on the "three big diseases" - AIDS, Tuberculosis & Malaria

This is a very important initiative and one we are proud to support. Given our long history of working in Africa and our extensive local contacts we are keenly aware of the impact of HIV and AIDS within the region.
